

Cornell University
Stem Cell Program

3RD ANNUAL STEM CELL SYMPOSIUM

Saturday, October 30, 2010
Alice Statler Auditorium
Ithaca, New York

Angela Christiano
Columbia University Center for Human Genetics
Differentiation of human iPS cells into keratinocytes

Peter Lansdorp
British Columbia Cancer Research Center
Non random segregation of sister chromatids

Alexander Nikitin
Cornell University Stem Cell Program
Stem cells, microRNAs and cancer

Julien Sage
Institute for Stem Cell Biology and Regenerative Medicine
Stanford University
The RB gene family in stem cells and cancer initiation

Amy Wagers
Harvard Stem Cell Institute
Skeletal muscle stem cells in muscle repair and muscle disease

Rick Young
Whitehead Institute for Biomedical Research
Massachusetts Institute of Technology
Programming embryonic stem cell state

CUSCP Symposium
Organizing Committee:
Tudorita Tumber, Chair
Alexander Nikitin
Robert Weiss
